

DILAN ALEXANDER PEREDO FLORES

SOFTWARE DEVELOPER

pfdilanalexander@gmail.com | +591 67848167 | Santa Cruz, Bolivia

PROFESSIONAL PROFILE

Highly skilled software developer with a strong focus on writing clean, maintainable, and scalable code. I am highly adaptable to changing environments and able to integrate quickly into new teams and technologies. I am passionate about technology and driven by challenges, with a continuous-improvement mindset that motivates me to constantly expand my knowledge and skills. I have a particular interest in databases, where I seek to deepen my expertise in both relational and non-relational solutions.

WORK EXPERIENCE

Full Stack Developer - FRIGOR - Santa Cruz, Bolivia

APR 2026 - Present

Purchasing System

- Developed a full-stack purchasing management system (C#, EF, Angular with lazy loading) featuring complete traceability, versioning, and multi-level approval workflows.
- Integrated multiple data sources (SQL Server, Informix) for real-time synchronization; deployed on IIS.

Dinner Management System (ERP foundation)

- Designed and implemented a custom command dispatcher (without relying on libraries such as MediatR) to decouple business logic and control execution flow.
- Implemented token/refresh-token authentication and automated Excel-based data loading, eliminating daily manual work.

.NET Developer (Project Contract) - IFA - Santa Cruz, Bolivia

JAN 2026 - MAR 2026

- Optimized annual and monthly budget management within an ERP integrated with SAP.
- Automated journal-entry generation through direct integration with SAP APIs, eliminating manual entry.
- Improved cost center and inventory control within the ERP system.
- Actively participated in the full development lifecycle: analysis, design, implementation, and testing.

Full Stack Developer - LINKSER - Santa Cruz, Bolivia

NOV 2024 - DEC 2025

- Designed a USDT transaction control system, including card validation restricted to a single country (Java, Spring Boot, NetBeans).
- Applied the Singleton pattern for efficient database connection management across multiple enterprise systems.
- Developed custom endpoints for external financial institutions, including Banco Ganadero.
- Migrated SOAP services to REST for Banco Bisa, modernizing its integration architecture.

Full Stack Developer - LAMBADA SRL - Santa Cruz, Bolivia

AUG 2023 - SEP 2025

- Developed specialized services for chatbot management using Node.js.
- Optimized the React.js user interface to improve the experience and functionality of the control panel.
- Implemented a CRM system integrated into chatbots with Node.js for efficient customer management.
- Applied artificial intelligence to chatbots using LlamaIndex.ts for intelligent data processing.
- Improved chatbot performance by incorporating AI powered through the administrative panel.

Full Stack Developer - HOTEL LOS TAJIBOS - Santa Cruz, Bolivia *APR 2023 - JUL 2023*

- Created a SPA project for customer management in PHP.
- Developed a "Lost and Found" system in C# .NET Framework, generating tickets for returning items to their owners.
- Administered the hotel's Windows servers.
- Used SAP Business One with HanaDB to manage staff information.

Full Stack Developer - BANCO FASSIL - Santa Cruz, Bolivia *AUG 2022 - FEB 2023*

- Developed an audit management system using Angular and Node.js.
- Processed documentation and entered data into databases.
- Consistently met short- and long-term objectives.
- Proactively participated in meetings focused on improving development practices.

EDUCATION

Bachelor's Degree in Systems Engineering *APR 2024 - Present*

UTEPSA University - Santa Cruz, Bolivia

Advanced Technical Degree in English Language *MAR 2015 - DEC 2018*

Self-Funded English Courses (CAI) - Santa Cruz, Bolivia

Intermediate Technical Degree in Computer Programming *OCT 2016 - JAN 2017*

INFOCAL - Santa Cruz, Bolivia

Intermediate Technical Degree in Computer Maintenance and Repair *MAR 2015 - SEP 2015*

INFOCAL - Santa Cruz, Bolivia

TECHNICAL SKILLS

Backend: C# .NET Core, .NET Framework, Java (Spring Boot), Node.js (Express), PHP

Frontend: Angular, React.js, Laravel

Databases: SQL Server, MySQL, PostgreSQL, MongoDB, Oracle, HanaDB

Tools: SAP Business One, Windows Servers, Git, Visual Studio Code, NetBeans

Other: LlamaIndex.ts, Applied Artificial Intelligence, Chatbot Development

LANGUAGES

Spanish - Native

English - Advanced Level (certified by CAI)

French - Intermediate Level (CAI courses)
